

Lawns For You: Create, Maintain & Grow the Perfect Lawn

Welcome to the Lawns For You book, a resource that will help you create and maintain the perfect lawn, whether it is just a small green space, a pretty ornamental lawn or even of the quality produced on golf and bowling greens. My name is Duncan Gray and I'm a professional Greenkeeper. I can tell you all you need to know about the methods used and machinery required to produce the lawn you want. I will also tell you how to save substantial sums of hard earned money on buying the fertilisers, conditioners, chemicals and grass seed required on the better quality lawns. All the information required will be in easy to understand sections covering all the topics listed below:

- 1 Grass types and their traits
- 2 The turfgrass environment
- 3 Mowing
- 4 Fertilisers and conditioners
- 5 Irrigation
- 6 Cultivation
- 7 Topdressing
- 8 Turfgrass diseases, weeds, and pests
- 9 Constructing and establishing a new lawn
- 10 Natural alternatives to grass lawns
- 11 Artificial Grass
