

A Handy Little Book on Making Your Own Garden Furniture

This book contains a detailed guide to the designing and construction of garden furniture. Written with the amateur in mind, this handy little book contains easy-to-follow instructions coupled with helpful diagrams, making the pieces featured herein not beyond the abilities of even the least experienced of readers. That said, the contents of this book will also be of value to those with some previous experience, and it is therefore not to be overlooked by the seasoned hand crafter. The chapters of this book include: Treillage and Trellis-work, Making and Erecting a Swing, A Sundial Pedestal in Brickwork, Ornamental Cement and Concrete Work, A Garden Frame Made in Sections, Lath Roller Blinds for Greenhouses, and more. This antique text has been elected for modern republication due to its timeless instructional value, and we are proud to republish it here complete with a new introduction on making and restoring furniture.
